

How to find your Product Code and Serial Number

**This information is required to accurately diagnose and fix your product issues.*

There are three locations where you will find the serial number and product code for your Reverie power base.

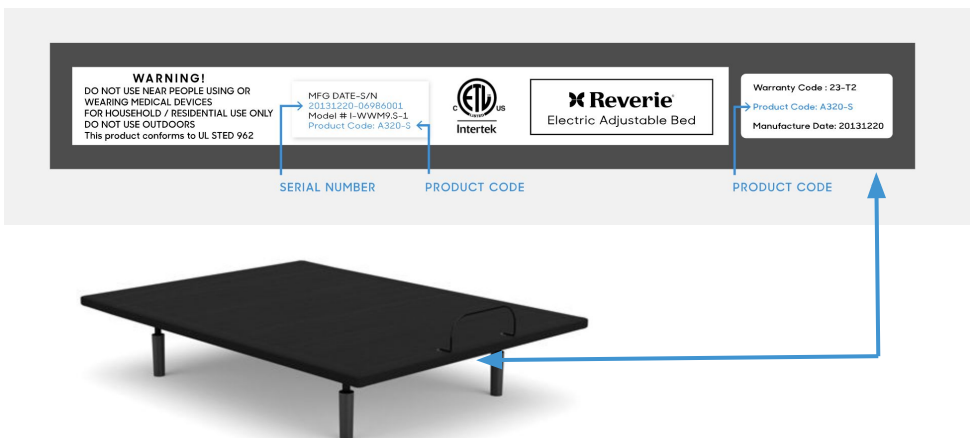

1. LAW TAG

The serial number and product code can be found on the law tag. If you are standing at the foot of the base, this can be found on the upper right hand corner of the base, sewn to the fabric.

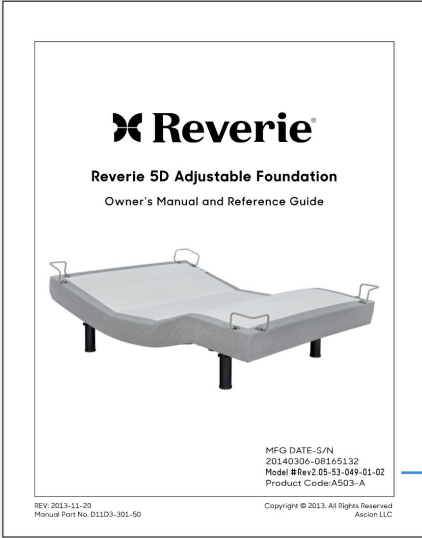

2. FOOT OF BED

The serial number and product code can be located on the product sticker found directly underneath the base foot board. If your bed is operating, elevate the foot of the base for easiest access.

3. OWNER'S MANUAL

The serial number and product code can be located on the front of your owner's manual at the bottom right corner.
